User ID: 88G4439

#### Overview

##### Admissions Overview

Welcome to the IPEDS Admissions (ADM) survey component. The primary purpose of ADM is to collect basic information about the undergraduate selection process for entering first-time, degree/certificate-seeking students in the fall term. This includes information about admissions considerations, admissions yields, and SAT and ACT test scores (if test scores are used in admissions decisions).

##### Data Reporting Reminders:

- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.
- Institutions operating on a traditional academic year calendar (semester, trimester, quarter, or 4-1-4) report admissions as of the institution's official fall reporting date or October 15. Institutions operating on an "other academic calendar", a calendar that differs by program, or that enrolls students on a continuous basis (referred to as program reporters) report admissions as students who enroll any time during the period of August 1 through October 31.

##### Changes to reporting:

The following changes have been made for 2025-26 collection:

- Added Part A – Screening Questions
- Expanded Part B to collect admissions considerations information for transfer-in degree/certificate-seeking students at institutions that do not have an open admission policy and for students in program(s) with admissions requirements at institutions that are primarily open admission but have at least one program that is not open admission (if applicable).
- Added two admissions considerations for transfer-in students in Part B (if applicable).
- Expanded Part C to collect applicants, admits, and enrolled counts for transfer-in degree/certificate-seeking students at institutions that do not have an open admission policy and for students in program(s) with admissions requirements at institutions that are primarily open admission but have at least one program that is not open admission (if applicable).
- Expanded Part C to disaggregate applicants, admits, and enrolled counts by race/ethnicity and full-time/part-time enrollment status.
- Expanded Part D to collect test score information for transfer-in degree/certificate-seeking students at institutions that do not have an open admission policy (if applicable).
- Added Part E – Waitlist, Early Decision, and Early Action (if applicable).
- Revised "gender" to "sex" where applicable. Revised "men" to "male" and "women" to "female" where applicable.
- Removed question collecting student headcounts of Another Gender.

## Part A - Screening Questions 1

**1. For the Fall 2025 admission cycle, did your institution have an open admission policy under which virtually all students that completed a high school diploma (or received a GED/other equivalent) were admitted for all or most entering undergraduate-level programs?**

Institutions that require only an Ability to Benefit (ATB) or similar test beyond the high school diploma/equivalent, and only reject a very small number of students based on the test, are also considered open admission.

If your institution has one or more programs with admissions requirements, you should select 'no' to this question.

Data reported to the Admissions survey component will vary based on response to this question.

- Yes, all undergraduate-level programs at the institution are open admission.
- This response will result in no admissions data, other than the ATB question, being collected.
- No, all or nearly all undergraduate-level programs at the institution have admission requirements.  
(i.e., all or nearly all entering students are evaluated against admission criteria to be granted admission to the institution)
- This response will result in admissions data being collected for **all entering students**.
- No, only one or a few undergraduate-level programs at the institution have admission requirements.  
(i.e., all or nearly all programs are open admission; only students applying to a limited number of programs are evaluated against admission criteria to be granted admission to the institution)
- This response will result in admissions data being collected **ONLY for entering students in those programs with admissions criteria**.

Institution: University of Florida (134130)

## Part A - Screening Questions 2

3. For which entering degree/certificate-seeking undergraduate student type(s) does your institution have admissions requirements?

 Transfer-in students

4. If your institution has admission requirements for both first-time students and transfer-in students, are these requirements the same?

- Yes  
 No

5. Did your institution enroll first-time degree/certificate-seeking undergraduate students in Fall 2025? If no, you will not report admissions data for first-time students.

- Yes  
 No

6. Did your institution enroll transfer-in degree/certificate-seeking undergraduate students in Fall 2025? If no, you will not report admissions data for transfer-in students.

- Yes  
 No
- Students may transfer credits earned from coursework completed at another postsecondary institution (e.g., college, university).  
 Students must complete a minimum number of credit or clock hours to enter as a transfer-in student.

Report the minimum number of credit or clock hours

- Clock hours  
 Credit hours

- No

Part B - Admissions Considerations

1. Select the option that best describes how your institution used any of the following data in its undergraduate selection process for the fall 2025 student cohort.

The options are:

- Required to be considered for admission (not applicable for legacy status)
- Not required for admission, but considered if submitted
- Not considered for admission, even if submitted

Considered means that an institution includes an item in the package that is reviewed by admissions officers during the review process and the item may factor into a decision for admission.

Report the scores used in the admission decision, whether test scores are required or are only considered for admission.

If you report less than 5 students for any of the scores, do not report percentiles.

Institutions that use test scores for some students report the percentile scores for the students for whom test scores were used.
